

Time Through Hands

Celebrating 100 Years

Thank you for your time and assistance, it is greatly appreciated.

This 'Time Through Hands' project is my creative attempt to tell the story of life in all it's intricate stages through expressive images of hands. These images, along with a short vignette detailing some interesting story or facet in the lives of my subjects, will combine to sew the quilt that is our collective lives. By allowing me to photograph your hands you have contributed another square to this narrative we call life.

Please provide the following information:

Full name(s): _____

Age at the time photographed: _____

Date and place of birth: _____

Occupation: _____

Please write a short paragraph detailing something that others would find interesting about you. It can be a meaningful event, an interesting hobby, a great obstacle that's been overcome, a quote you try to live by, an award you have won, some great adventure you have taken or a decisive decision that changed the course of your life.

A parent/guardian can assist or tell the story if needed.

You can e-mail this information back to me at 'tony@whitepointimaging.com' or regular mail to Tony Dube, 270 Dennison Ridge Drive, Manchester, CT 06040

Please include a signature on plain white paper that I can scan and print beneath your hands.

Thank you again

Tony Dube
